

VAARDIGHEDENTEST OPPERVLAKKEN / BREUKEN / SYMMETRIE

Bereken de omtrek en het oppervlak van de volgende figuren!

U = omtrek
A = oppervlak

$$U = 16 \text{ cm}$$

$$A = 16 \text{ cm}^2$$

$$U = 10 \text{ cm}$$

$$A = 5 \text{ cm}^2$$

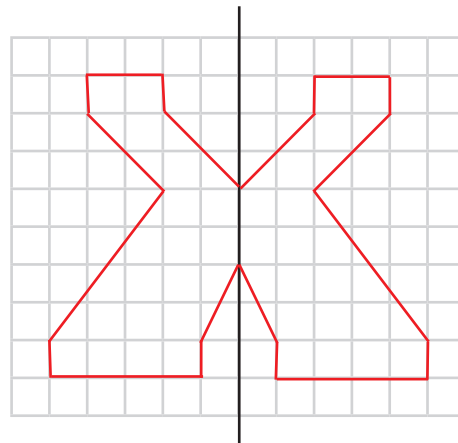

$$U = 12 \text{ cm}$$

$$A = 5 \text{ cm}^2$$

Maak de symmetrisch patronen af!

<, > of =. Wat is het juiste antwoord?

$$\frac{5}{8} < \frac{5}{7}$$

$$\frac{1}{4} = \frac{2}{8}$$

$$\frac{1}{2} > \frac{1}{4}$$

$$\frac{4}{8} = \frac{1}{2}$$

$$\frac{2}{8} < \frac{2}{4}$$

$$\frac{2}{4} > \frac{1}{8}$$

$$\frac{7}{8} > \frac{1}{2}$$

$$\frac{1}{2} = \frac{2}{4}$$

$$\frac{1}{8} < \frac{1}{2}$$

$$\frac{4}{8} < \frac{3}{4}$$

$$\frac{6}{8} = \frac{3}{4}$$

$$\frac{1}{1} > \frac{1}{2}$$
